IQAC

**Report on Structured feedback
From Stakeholders**

2021

CONTENT

- (1)** Filled –in feedback Forms
 - (a)** Filled in feedback forms of three students (i) Top Ranker, (ii) Slow Learner (iii) Student from Category, as a representative samples
 - (b)** Filled –in feedback Forms of three Teachers (i) Professor, (ii) Associate Professor (iii) Assistant Professor, as a representative samples
 - (c)** Filled –in feedback Forms of three Employers (i) Industry, (ii) Research Organisation (iii) Govt. Sector or NGO
 - (d)** Filled –in feedback Forms of three Alumni (i) Top Ranker, (ii) Female Student (iii) Student from Category, as a representative samples
- (2)** Analysis of Feedback with Graphical Representation
- (3)** Comparison of Feedback of different Stakeholders
- (4)** Pertinent pointers identified & drawn to enhance the learning effectiveness
- (5)** Communication letters of ‘Action Taken’, as representative samples
- (6)** Screenshots of the Feedback Report displayed on website
- (7)** Basis of Planning the Revision or Updating the Syllabus based on the Feedback
- (8)** MoM of BoS and Academic Council on Feedback
- (9)** Action Taken and Improvement or Enrichment in the Curriculum
- (10)** Geotagged Photographs, if any
- (11)** Conclusion

Declaration

This is to state that all the Feedback Forms collected from all the stakeholders (a) Students, (b) Teachers, (c) Employers and (d) Alumni, for the 'Academic Year' 2020-21, are preserved in the School for record purpose and will be made available to IQAC at any time, when DVV Partner demands to produce it randomly.

The report is prepared based on the Feedback Forms collected from the stakeholders.

Excellent	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Poor

Do you think that the curriculum has sufficient component based on research? Elaborate. *

Yes it was research oriented but sources not specified always, where to refer which source is reliable.

Does the curriculum generate sufficient interest to pursue higher study in the subject concerned ? Elaborate. *

Didn't learn much in English language teaching less professional training on 101, rest all the subjects were done well and specially ICT was very interactive learned new things and Psychology is where I am motivated to pursue the next year as it was very well organised from start to end, it was awesome..so much to learn, yes I am surely motivated to pursue higher education

What new 'components' should be included in the curriculum for bridging the gap between academia and industry? [Industry refers to fields of educational sector] *

If we are assigned variety of schools ranging from Govt to Waldorf to analyse how the teaching is conducted how we can master our subject and present it in various circumstances that arise in practical teaching it would help bridge the gap

Any other suggestions that you would like to give for enriching the curriculum? *

Please check all staff eligibility,
"Relavant" content is taught "aptly" and the trainers our monitored and guided to change their teaching pattern incase things are not in place

Analysis of feedback forms

2. Analysis of Feedback with Graphical Representation

A) Students

I. Details of number of students and responses obtained course wise

Total number of students enrolled in B.Ed. [First and Second Year]	121
Total number of feedback obtained	80

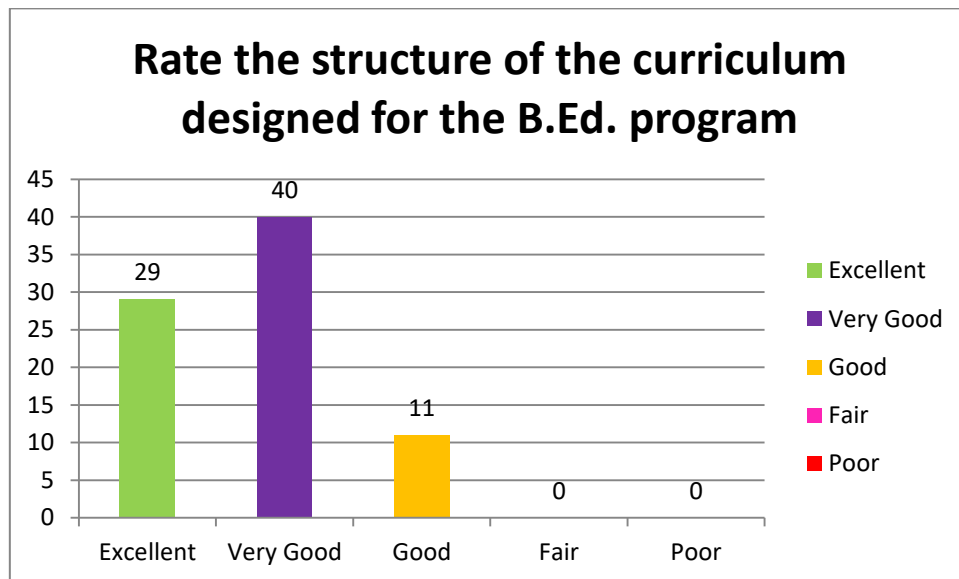

Total number of students enrolled in MA.Ed. [First and Second Year]	18
Total number of feedback obtained	15

Color code index for ratings

Excellent	Very Good	Good	Fair	Poor

Students

II. Responses obtained for the question rate the structure of the curriculum designed for the entire program.

The students have rated the curriculum on the positive continuum. There was not a single response obtained for the lower limits i.e. fair or average. The B.Ed. curriculum is divided into 3 group of courses spread over 2 years, namely, Perspectives in Education, Curriculum and Pedagogic Studies and Engagement with the Field. Thus, the structure of the curriculum is well defined and meets the current demands of the students. This might be a possible reason of an overall positive feedback towards the course structure.

The students have rated the curriculum on the positive continuum. There was not a single response obtained for the lower limits i.e. fair or average. The M.A. in Education curriculum has a good blend of core courses, electives and skill based courses. This makes the curriculum extremely compelling.

III. Responses obtained for the question rate the depth of the curriculum offered in terms of the competencies expected by the industry [Educational sector]

The B.Ed. curriculum is enriched with components like recent trends in education, innovative teaching learning paradigm, pedagogical innovations along with practical and research components. This might explain why all responses catering to this question was once again positive.

The M.A.in Education curriculum stresses on implications of theory through field based practicum. The curriculum is designed in a way that it caters to all aspects of education for developing professionals to work at different levels like teacher, administrator, policy maker, teacher educator and content developer. This might be the reason of getting an overall positive response from the students.

IV. Responses obtained for the question: What is the standard of the curriculum taught? Does the curriculum take into consideration the local, national and global needs?

[B.Ed.]

No. of responses that agree on said statement	No. of responses that disagree on said statement	No. of responses that consider the curriculum to be average	No. of responses that are unable to decide
70	04	03	03

On analyzing the responses it was noted that majority of the students had an affirmative stance towards this question. 21st century skills, progressive and liberal curriculum, student centered approach, imbibing future competency and having a vision of overall development were the common reasons mentioned by the students for this choice of theirs. There were few

students who disagreed or were unable to give a clear view about this question. According to them the curriculum doesn't match the international standards and few subjects should be made compulsory to raise the standards of the curriculum up to the international level.

[MA.Ed.]

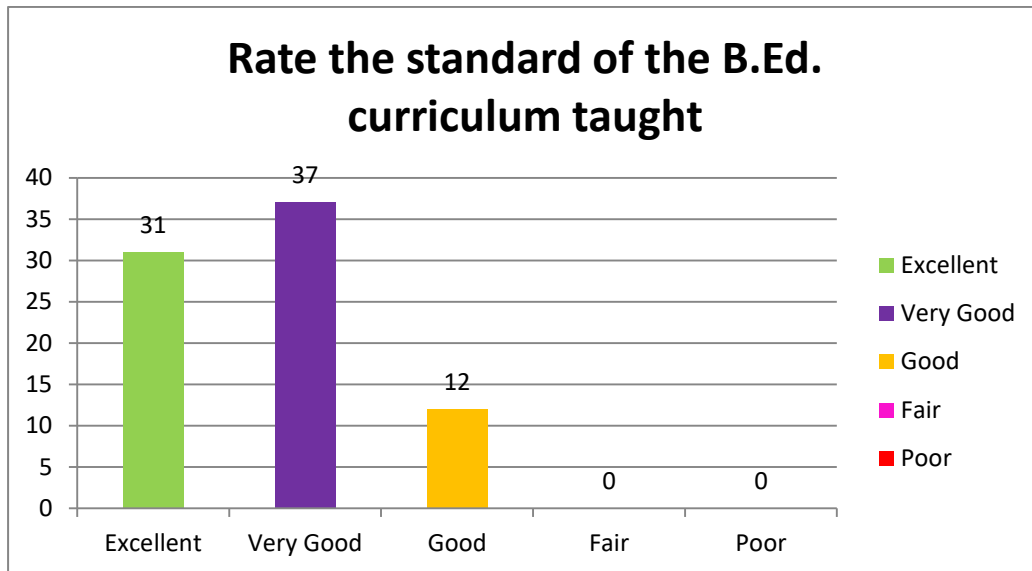

No. of responses that agree on said statement	No. of responses that disagree on said statement	No. of responses that consider the curriculum to be average	No. of responses that are unable to decide
13	0	1	1

On analyzing the responses it was noted that majority of the students had an affirmative stance towards this question. Overall development and skill based approach were the major reasons mentioned by the students for this choice. Students who were unable to decide did not give a clear reason behind their choice. It can however be assumed that these students

might be in the first year of this course and thus were not fully aware about the curriculum in a holistic way and thus couldn't make a clear preference for this question.

V. Responses obtained for the question: Rate the standard of the curriculum taught.

The B.Ed. curriculum imparts the teacher-trainees with the knowledge and skills needed for them to become an effective 21st-century educator. The emphasis on technology in learning and teaching is a defining element of the B.Ed. curriculum. The curriculum attempts to develop teachers capable of analysing, reflecting on the teaching learning process and improving it for better learning. These strengths of the B.Ed. curriculum can explain the overall positive response of the students for this particular question.

Once again an overall positive response was obtained for this question that can be justified with the overall aim and approach of this curriculum. The M.A.in Education curriculum focuses on developing the capacities of people who want to be part of education system in range of responsibilities right from curriculum development, implementing innovative teaching – learning practices, setting up robust evaluation and assessment patterns, handling students affairs, academic monitoring and administrative positions.

VI. Responses obtained for the question: Does the curriculum focus on employability/ entrepreneurship/ skill development? How?

[B.Ed.]

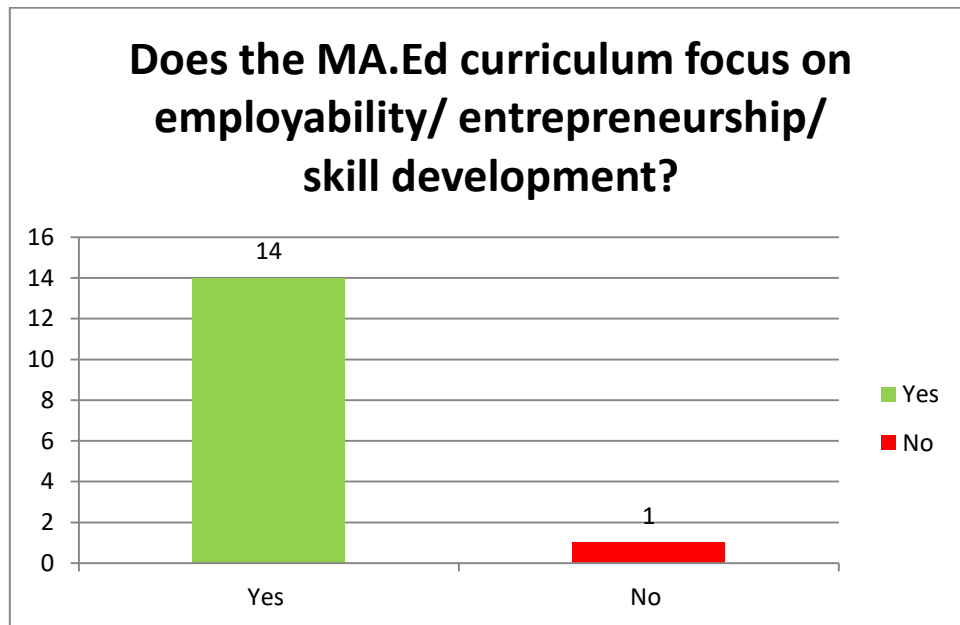

Number of Yes	Number of No
78	02

Out of the total responses obtained, 78 students had an affirmative stance for this question. Hands on training, development of soft skills, exposure to different teaching methodologies, practical approaches through field training and internships and ICT related skills were the reasons stated by the students for their positive choice. There were 2 responses obtained that did not agree on the said statement. They did not give any specific reason for their opinion.

[MA.Ed.]

Number of Yes	Number of unable to decide responses
14	01

Out of the total responses obtained, 14 students had an affirmative stance for this question. Skill development, innovative practical and activities, field training and internships were the reasons given by students for justifying their positions. However, only one student replied in negation towards this statement without proving an exact reason of the same.

VII. Rate the curriculum in terms of employability skills

The B.Ed. curriculum is directed to imbibe the ability of interpreting, designing and implementing relevant curriculum and pedagogy, integrating digital technologies and differentiating teaching to engage all students in their learning. Special education and research related components are again the highlights of this curriculum. These are areas of high employability in the present times. Thus, this can be interpreted as one of the reasons why majority of the students have given a positive rating to this question. There were 7 students who gave an average rating and 3 students who gave a poor rating to this component. The expectations of campus placements can be correlated to this negative response of theirs.

The M.A. in Education attempts to develop a qualified educational workforce. It caters to all aspects of education and develops professionals to work at different levels like teacher, administrator, policy maker, teacher educator and content developer. 14 students agreed positively to with the notion that the curriculum caters to employability skills. Only one student gave an average rating to this question. Reasons can once again be correlated to campus placement aspects.

VIII. Rate the curriculum in terms of skills required in the education sector

70 students found the curriculum good in terms of the skill set required for the education sector. Developing professional competencies by using relevant teaching strategies, a range of resources, including ICT to engage students in their learning; using effective communication strategies to support student understanding, participation, engagement, and achievement are some of the highlights of the curriculum. This can explain the overall positive response of the students towards this question. 7 students rated the curriculum as average and 3 as poor for this question. There is however no clarity behind this response of theirs.

The M.A. in Education curriculum focuses on a variety of capacities and skills like digital competencies, team work capacities, professional capacity building aspects, professional ethics, academic integrity to name a few. This explains the overall good response to this question from the students. 2 students found the curriculum to be fair, the reason of the same is unclear.

IX. Rate the curriculum in terms of ICT skills required in the education sector

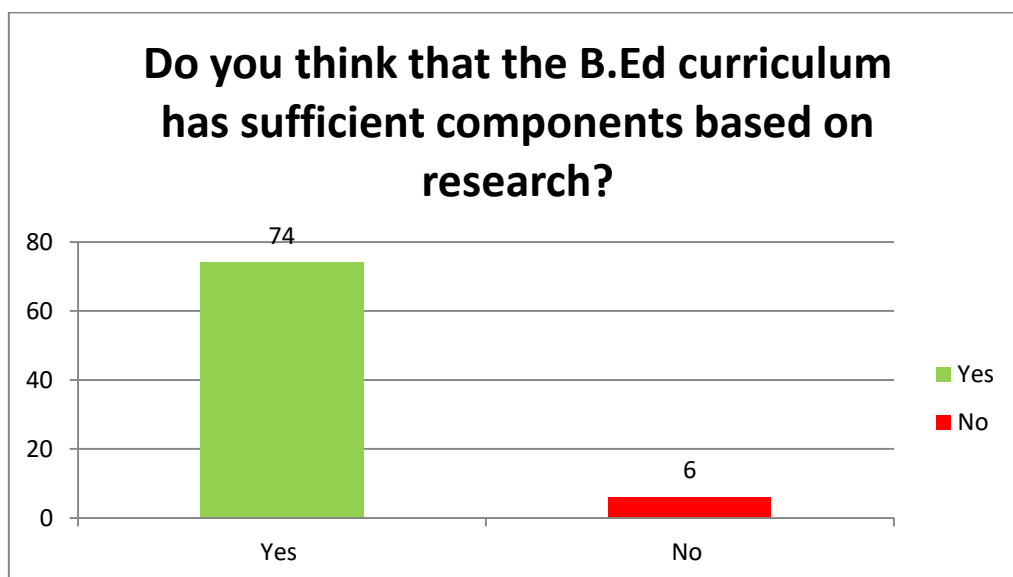

Information, Communication and Technology is given as a core course under the Perspectives in education umbrella. Critical understanding of ICT course develops skills needed for use of ICT in education by creating blogs, discussion forums, educational movies, and websites. ICT is also offered as a pedagogic specialization course in both years for the students. The curriculum successfully goes beyond the minimum requirements and attempts to make the students digitally competent. 69 responses have marked this question on a positive scale. Average ranking has been given by 8 students and 3 have marked this component on a poor range. The possible reasons for this might be that few students entering this course might not be proficient with the basic technological elements and thus might consider the advanced exposure of ICT difficult to comprehend.

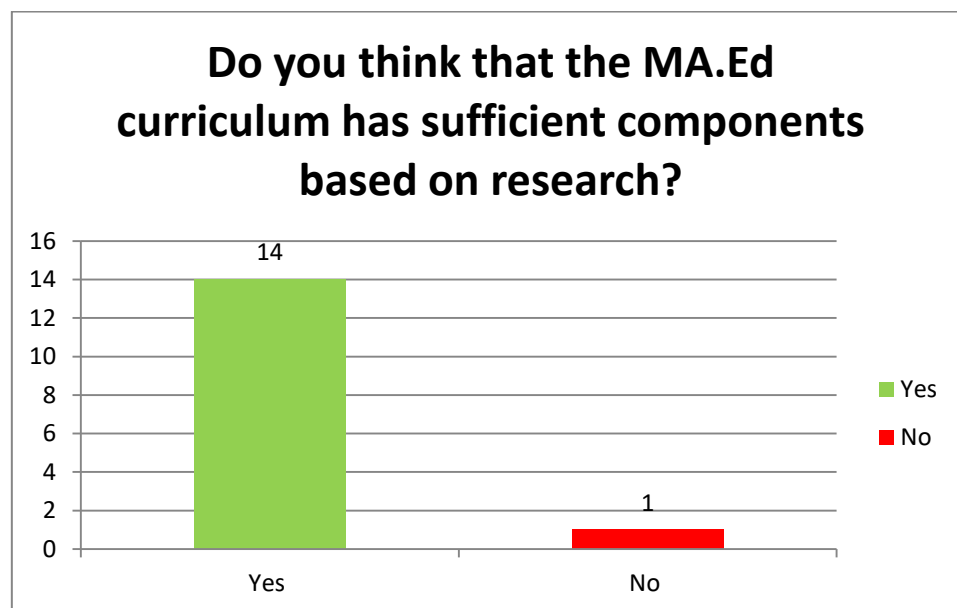

Design thinking, technological innovations, educational technology as a core component of the M.A. in Education curriculum highlights the importance given to ICT skills. Only one student considered this element to be on an average side, rest all gave a high rating to the ICT component of the curriculum.

X. Do you think that the curriculum has sufficient components based on research? Elaborate.

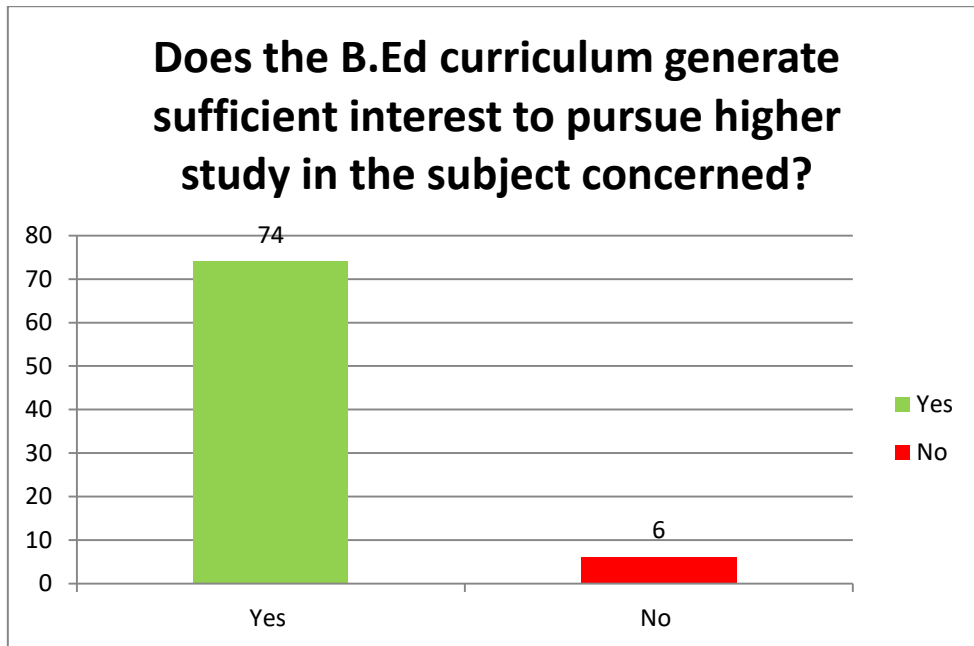

Action research is a compulsory component for the B.Ed. students. It help student-teachers understand what can happen in their classroom and identify changes to improve their

teaching and learning. Through action research projects students practically find out a solution to the various problems they face in the field through a systematic and scientific approach. The overall positive response towards this question can be justified on the basis of the above lines. Six students however gave a negative response. Action research is usually carried out by the students during their internship. This might have acted to be a burden for some. Similarly, the introduction of research terminologies and the entire research process might have appeared a bit complicated for the students for direct implementation.

Dissertation is a crucial component in the curriculum through which candidates learn the process of research and develop products which contribute to the field of education. In order to provide clarity on research concepts an appropriate theoretical base is also given to the students. This justifies why 14 out of 15 students appreciated the research component of the curriculum. The lone response that disagreed on this aspect might be a first year student. Research is introduced in the second year and thus the student might not have got an exposure of the same while entering this response.

XII. Does the curriculum generate sufficient interest to pursue higher study in the subject concerned? Elaborate.

Majority of the students responded in the affirmative. As per the analysis of the responses one can conclude that the B.Ed. curriculum increases their curiosity to consider M.Ed. and PhD as options for higher studies. Certain students also want to pursue some courses related to specializations in inclusive education, child psychology, special education, simulations in education to name a few. 6 students did not agree to the statement made. They felt the curriculum was too vast to generate an interest for higher studies.

14 students agreed that the M.A. in Education curriculum generates interest for pursuing higher studies. ID, e-learning, teaching tools and research were the domains of interest for pursuing higher studies for the students. Few also expressed an interest to pursue PhD in future. One student couldn't define his / her stance properly.

XIII. What new 'components' should be included in the curriculum for bridging the gap between academia and industry? [Industry refers to fields of educational sector]

B.Ed.

Suggestions revolving around themes:

- Sponsor research projects of students with fellowships
- Increase field visits
- More hands on experience
- Give variety of schools for internships - Include Government institutes also
- Develop communication skills of the students
- Emphasis on skill based education
- Provide more training regarding technology and digital skills
- Administrative skills training should be given

MA.Ed.

Suggestions revolving around themes:

- Provide training on interpersonal skills.
- More hands on experience
- Provide training of soft skills

XIV. Any other suggestions that you would like to give for enriching the curriculum?

B.Ed.

Major Additional Suggestions:

- Give more emphasis on research
- Remove subjects like Yoga and EVS
- Self-realization and book reviewing should start at the initial phases itself
- Include more practicals
- Include courses on documentation, file making, admin/ managerial skills

MA.Ed.

Major Additional Suggestions:

- Include policy making as a subject
- Include a course on self- learning material

Alumni

BJ Alumni

I. Rate the structure of the curriculum designed for the entire program.

The students have rated the curriculum on the positive continuum. There was not a single response obtained for the lower limits i.e. fair or average. The B.Ed. curriculum is divided into 3 group of courses spread over 2 years, namely, Perspectives in Education, Curriculum and Pedagogic Studies and Engagement with the Field. Thus, the structure of the curriculum is well defined and meets the current demands of the students. This might be a possible reason of an overall positive feedback towards the course structure.

The students have rated the curriculum on the positive continuum. There was not a single response obtained for the lower limits i.e. fair or average. The M.A. in Education curriculum has a good blend of core courses, electives and skill based courses. This makes the curriculum extremely compelling.

II. Rate the depth of the curriculum offered in terms of the competencies expected by the industry [education sector]

The B.Ed. curriculum is enriched with components like recent trends in education, innovative teaching learning paradigm, pedagogical innovations along with practical and research components. This might explain why most of the responses catering to this question were once again positive. There was a single response that rated the curriculum as average.

Rate the depth of the MA.Ed curriculum offered in terms of the competencies expected by the industry

The M.A.in Education curriculum stresses on implications of theory through field based practicum. The curriculum is designed in a way that it caters to all aspects of education for developing professionals to work at different levels like teacher, administrator, policy maker, teacher educator and content developer. This might be the reason of getting an overall positive response from the students.

III. Does the curriculum successfully comply with the declared course objectives and the expected learning outcomes?

Does the B.Ed curriculum successfully comply with the declared course objectives and the expected learning outcomes?

The course objectives and learning outcomes is very well defined in the B.Ed. curriculum. All the responses obtained for this question were positive.

The course objectives and learning outcomes is very well defined in the M.A.in Education curriculum. All the responses obtained for this question were positive.

IV. Highlight the major features of the curriculum that you liked the most.

Major Highlights in B.Ed.	Major Highlights in MA.Ed.
<ul style="list-style-type: none"> ● Action Research ● Innovative teaching practices ● Activities ● Practical work 	<ul style="list-style-type: none"> ● Internship ● Dissertation projects

V. Mention the aspects that you wish to modify in the curriculum.

Suggestions in B.Ed.	Suggestions in MA.Ed.
<ul style="list-style-type: none"> ● Add more e-content in the syllabus ● Reduce the portion 	<ul style="list-style-type: none"> ● Add MCQs as activities

VI. On a scale of 1 to 5, rate the standard of the following activities conducted by the department. [Training, Exposure to Innovative methods, Internships, ICT skills, Research facilities]

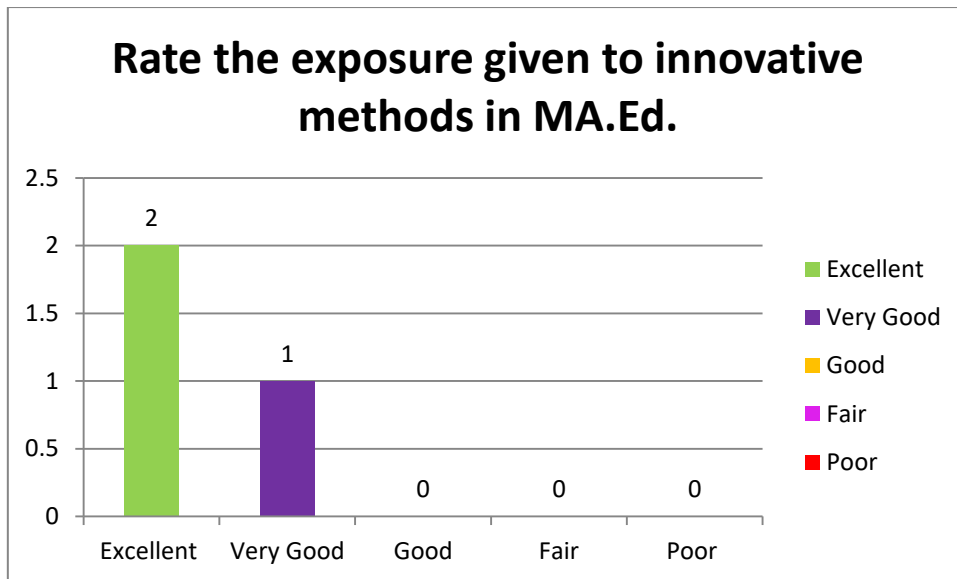

Recent trends in education, field based practicals are given due importance in the B.Ed. curriculum. This might be a reason why all the responses obtained for the training aspect were positive

A diverse outlook is taken into consideration for training the M.A.in Education students. Once again, all the responses obtained for this question were positive.

Most of the students gave a high rating to the innovative methodologies in the B.Ed. curriculum. The curriculum is enriched with a vast spectrum of innovative methods. One student however, rated this component on an average scale.

All the responses obtained were positive. The curriculum gives importance to implications of theoretical concepts by utilizing various innovative ways.

B.Ed. curriculum offers an extensive internship for both first and second year students. It focuses to develop skills amongst the candidates for becoming an able professional working in an educational institution. Once again all responses were positive. There were few students who were also placed by the schools wherein they had completed their internship. This might once again justify the positive responses.

M.A.in Education curriculum allows the Students to choose any educational institute, NGO, government offices, curriculum development office, schools etc. for completing their internship. This provides them an exposure with practical knowledge about the work culture, roles responsibilities of the professional and kind of work done in the institute. All responses were positive.

Information, Communication and Technology is given as a core course under the Perspectives in education umbrella. Critical understanding of ICT course develops skills

II. What new ‘components’ should be included in the curriculum for bridging the gap between academia and the education industry?

- Major points**
- More practical concepts
 - 21st century skills
 - Skill based
 - Value based
 - Entrepreneurship training

III. Any other suggestions that you would like to give for enriching the curriculum?

- Major points**
- Should cater to rural aspects
 - Should cater to all levels of students

***Comparison of
Feedback of different
Stakeholders &
Pertinent Pointers***

3. Comparison of Feedback of different Stakeholders

- **As per the feedback obtained from the stakeholders it can be understood that:**
 - The overall curriculum meets the standards of the industry.
 - It takes into consideration the local and national needs for sure.
 - Innovative teaching methodologies, practical, activities, research, ICT based teaching are the strengths of the curriculum

4. Pertinent pointers identified & drawn to enhance the learning effectiveness

- **As per the feedback obtained from the stakeholders things that can be done to enhance the curriculum include:**
 - Interview facing skills should be included in the syllabus
 - A course focusing on entrepreneurship and administrative skills should be added.
 - Counselling subject should be added and made compulsory.
 - Inculcation of more field trips, hands on experiences as per the industry requirement as well as funded research in collaboration with industry should be added.
 - Course on communication and interpersonal skills should be added.
