## SCHOOL OF EDUCATION & RESEARCH

MIT Art, Design and Technology University's School of Education and Research [SOER] celebrated the National Science Day in collaboration with Homi Bhabha Centre for Science Education [HBSCE] on 27th February, 2019.

## NATIONAL SCIENCE DAY CELEBRATION

*"Imagination is more important than knowledge. Knowledge is limited. Imagination encircles the world."*

*-Albert Einstein*

Every year the HBSCE organizes a variety of activities on National Science Day. This year

along with MIT SOER, a contest on innovative teaching and learning practices was arranged for school teachers, student-teachers and teacher educators.

The participants were expected to submit their plans with their innovative practices in any one school subject. Detailed guidelines were provided to the participants

The response towards this competition was really good. People from a variety of backgrounds participated enthusiastically in this contest. The participants demonstrated their idea live in front of the panel of judges from HBSCE.

*Two winners were identified from each category based on the innovative aspect of the idea, relevance to learning, the concept addressed and applicability in the actual classroom .*

*The participants also got to interact with the experts of the respective field. The experts gave important tips to the participants.*

*They also stretched on the importance of making*

*science education an innovative journey rather than a monotonous dead end.*

*The program ended with felicitation of the winners. the winners were given a trophy and a certification of merit.*

**- Reported by Asst. Prof. Divya Nair**

**"Even if the open windows of science at first makes us shiver.. in the end , the fresh air brings vigor and the great spaces have a splendor of their own ."**

**- Bertrand Russell**
